The Honorable Bill Cassidy, Chairman  
Committee on Health, Education, Labor and Pensions  
United States Senate  
455 Dirksen Senate Office Building  
Washington, DC 20510

Dear Chairman Cassidy:

On behalf of the more than 2 million members of the National Retiree Legislative Network (NRLN), I am requesting that you call for a vote in the Committee on Health, Education, Labor and Pensions on **S.3794, SAFE Drugs Act of 2025.**

“FDA approved” is the global gold standard for drug safety. Yet many Americans are being exposed to mass compounded drugs, which bypass FDA’s approval process and, as the FDA warns, “pose a higher risk” to patients. While compounding serves important individualized medical needs, some entities are exploiting it to illegally manufacture and sell untested, unapproved drugs. These products endanger patients, undermine trust in FDA-approved medicines.

**S.3794** would protect patients from untested, unapproved, and potentially dangerous mass compounded drugs by requiring regular inspections of compounding facilities, enhancing transparency through stronger reporting requirements, and ensuring the FDA has the resources it needs to safeguard consumers.

If you would like to learn more about why NRLN supports this bill, please contact me or Alyson Parker, NRLN Executive Director in Washington, DC, at [parkerstrategies@gmail.com](mailto:parkerstrategies@gmail.com) or call 813-545-6792.

Sincerely,

Bill Kadereit, President  
National Retiree Legislative Network
